About Me

I am Ulugbek, a frontend developer specializing in Vue.js and Nuxt.js. I build intuitive, high-performance web applications with clean and reusable code. While my focus is on frontend, I also have experience with backend technologies like Node.js and Express.js. I recently developed a Telegram web app and an admin panel for an online store, streamlining product management and order processing.

I am always eager to refine my skills, explore new technologies, and contribute to impactful projects that enhance user experience and efficiency.

Tech Skills

- Frontend: Vue.js, Nuxt.js, JavaScript, TailwindCSS
- State Management: Vuex, Pinia (Advanced)
- Backend: Node.js, Express.js (Basic)
- Database: MySQL, MongoDB (Basic)
- Tools: Git, GitHub, Postman, Railway, Vercel

Soft Skills

- Problem-solving, debugging & critical thinking
- Self-learning & adaptability
- Team collaboration
- Time management

Experience

Frontend Developer

Self-employed | 2023 – Present

- Built a Telegram Web App and admin panel for an online store using Vue.js and Nuxt.js.
- Designed a responsive, user-friendly interface for a smooth experience.
- Developed an admin dashboard for product management and order processing.
- Optimized state management and API integrations for better performance.
- Worked with Node.js and Express.js for basic backend operations.
- Continuously learning and keeping up with modern technologies.

Education

TUIT - Tashkent University of Information Technologies

from 2022/2023 - present

Bachelor's in Software Engineering (in Progress)

- Studied core subjects in computer science, algorithms, and software development.
- Worked on a student management system project with classmates to help organize and manage lessons more efficiently.
- Gained foundational knowledge in programming, web development, and system design.

Language

- Uzbek – Native
- English – Basic (Can read and understand technical documentation)
- Russian – Basic (Can understand some technical texts)
